SUMMARY

I am smitten with coding, numbers, data, and computers. I found my passion in 2017 in my 2nd year in college as I attended the ICT in Orange conference about Big Data & IoT. I was impressed with how we can control several things, make them communicate automatically with each other, and make the future much easier for us.

EXPERIENCE

Computer Vision Intern, Remote — MoodMe

Part-time Jan 2022 – Feb 2022 · 2 mos

Collect, Clean datasets & optimize existing models

Data Analyst, Nasr City— BawabtAlsharq

JUN 2021 – JUL 2022

Developing reports from Google Analytics and using GTM & Excel.

Create Dashboards on Data Studio.

Support media buyers & marketing team to evaluate marketing strategies and help avoid wasting money based on data-driven decisions,

Using SQL & Python to collect & analyze data from old website versions & local database.

EDUCATION

Computer Science, Bachelor — HTI

SEP 2015 - SEP 2019

I'm a Technological Institute (HTI) graduate with a 3.05 GPA.

SKILLS

Python, Statistics, SQL, R,
PySpark, AWS
Machine learning
Deep learning
Data Visualization
Scraping
Automating
Regular Expressions
Fair knowledge of Java
Linux
Googling

CERTIFICATIONS

- **SQL for Data Science** via Coursera.
- **Machine Learning** via Coursera.
- **Data Science: Foundations** using R Specialization via Coursera.
- **Applied Data Science** with Python Specialization Via Coursera.
- **Statistics with Python** Specialization Via Coursera.
- **Data Analysis** Professional Track via Udacity.
- **AI Programming with Python** Nanodegree via Udacity.

LANGUAGES

- Arabic: Native
- English: C1
- German: A1
